

NOTICE OF WATER METER READING

The Town of Brunswick Water Department employees are currently out reading meters. Although some areas are read through an automated process, in most cases the employee will have to visit your property to obtain an accurate meter reading. The employees will be driving a red truck with the Town of Brunswick on the side. They will also be carrying a handheld meter reading device. Please feel free to call the Water Department at (518) 279-3461 ext. 114 with any questions. Thank you.
