Area Variance Continued

1. Explain how no undesirable change will be produced in the character of the neighborhood; nor a detriment to nearby properties created by granting the Area Variance.

There are three other pools in the neighborhood and will no detriment on nearby properties.

2. Explain why the benefit sought by the applicant cannot be achieved by some method, feasible for the applicant to pursue, other than an Area Variance.

Cannot set the pool back due to a leach field and putting pool back where the existing pool was

3. Describe whether the requested Area Variance is substantial.

Its necessary for the pool size and to put it in the same spot as the old one

environmental conditions in the neighborhood or district.

There are other pools in the area and it fits within the neighborhood and has no environmental impact

5. Explain whether the difficulty is self-created. (Consideration is relevant, but shall not necessarily preclude the granting of the Area Variance)

Yes it is self created but due to the track field and the old pool its necessary to put the new pool in the same spot

For Use Variance Applications, please complete the following:

Describe the requested use: _____

1. Explain why the applicant cannot realize a reasonable return from the property without the Use Variance, as demonstrated by competent financial evidence.

2. Explain how the alleged hardship relating to the property is unique, and does not apply a substantial portion of the district or neighborhood.

3. Describe why granting the requested Use Variance will not alter the essential character of the neighborhood.

4. Explain whether the alleged hardship has been self-created.

**Short Environmental Assessment Form
Part 3 Determination of Significance**

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
