

# Your Opinions Matter! Share Your Ideas!

The Hoosick Road Corridor Study is sponsored by the Town of Brunswick and Capital District Transportation Committee (CDTC) to develop recommendations to reduce traffic congestion, improve safety, and improve multi-modal mobility (i.e. for bicyclists, pedestrians, and those who use transit). By taking the survey below, you can provide valuable information on existing needs and ideas for transportation improvements. Your comments can help shape the future of this important corridor in the Town. The survey will take about 3 minutes to complete. The study area extends along the Hoosick Road corridor from Lake Avenue to Sweet Milk Road as shown below. Additional information and opportunities to provide feedback can be found at <https://www.hoosickroadstudy.com>
