Area Variance Continued

1. Explain how no undesirable change will be produced in the character of the neighborhood; nor a detriment to nearby properties created by granting the Area Variance.

This home will not be visible from the road. Zoned for A-40 which is ok in A-40

2. Explain why the benefit sought by the applicant cannot be achieved by some method, feasible for the applicant to pursue, other than an Area Variance.

The property is too narrow/small to build in front of current structures.

3. Describe whether the requested Area Variance is substantial.

NO. This house will violate 160-29 A3  
 Accessory in front of Primary

4. Explain how the proposed Area Variance will not have an adverse effect on the physical or environmental conditions in the neighborhood or district.

The 2 accessory structures already exist.

5. Explain whether the difficulty is self-created. (Consideration is relevant, but shall not necessarily preclude the granting of the Area Variance)

Yes. I want to build a new home because our current residence is only 1BR.

**For Use Variance Applications, please complete the following:**

Describe the requested use: \_\_\_\_\_

### Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
